Objective

I'm a passionate B.Sc. Data Science graduate with strong skills in problem-solving, critical thinking, and data analysis. I've worked on real-world projects that helped me gain hands-on experience in machine learning, web development, and data visualization. I'm now looking for an entry-level opportunity in Data Science, Full Stack Development, or Data Analysis where I can apply my skills, collaborate with a team, and contribute to building innovative, data-driven solutions.

Education

B.Sc. Data Science	May 2025
Islamiah College (Autonomous), Vaniyambadi	*Graduated*
CGPA: *7.93*	

Skills

- **Programming Languages:** Python, R, C, Java (basic)

- **Web Development:** HTML, CSS, JavaScript

- **Data Science Tools:** Pandas, NumPy, Scikit-learn, Matplotlib, Seaborn

- **Data Analysis Tools:** Tableau, MS Excel, R programming

- **Database Management:** MySQL, DBMS

- **Version Control:** Git, GitHub

Internship

AspiraSys, Web Development Intern (Dec 2024 – Present): Currently undergoing internship training in Basic Fundamentals of Web Development, working on real-world projects and enhancing practical skills in web technologies.

Certifications

TCS iON NQT Cognitive Assessment (Feb 2025): Scored 72.82% overall with strong performance in Numerical, Verbal, and Reasoning abilities.

TCS iON NQT Psychometric Assessment (Feb 2025): Demonstrated high levels of open-mindedness, thoroughness, sociableness, and motivation traits such as accomplishment, authority, and association.

Certificate of Merit – Hindi (2023): Awarded **1st Prize** for securing the highest marks in Hindi among the entire batch.

Certificate of Merit – Urdu (2023): Awarded **2nd Prize** for academic excellence in Urdu among the entire batch.

Projects

Recommendation System: Designed and developed a collaborative filtering-based movie recommendation system to suggest personalized content to users.

Website Development: Built and deployed multiple responsive websites using HTML, CSS, and JavaScript, enhancing user experience and web performance.

Data Analysis: Performed comprehensive data cleaning, preprocessing, and visualization on real-world datasets to extract actionable insights using Python libraries.

Trip Explorer: Developed a responsive web application using HTML, CSS, and JavaScript for a custom-built travel consultancy and booking platform. The site allows users to explore top global destinations, book tickets, and reach out via a contact section for inquiries. Focused on UX design, interactivity, and clean layout.
